

banditbikers

WHO WE ARE

BanditBikers is one of India's most iconic motorcycle freestyle stunt teams. Founded in early **2006** in **Kerala** and now based in **Bengaluru**, it remains one of the few live stunt-riding teams in the country that have been actively performing since its founding year.

From a small group of passionate riders to a nationally recognised performance squad, BanditBikers has grown through dedication to the sport. Backed by years of professional training and deep respect for freestyle riding, our riders bring energy, precision, and discipline to every stage, delivering high-impact stunt performances that push the limits of motorcycle freestyle and captivate audiences while creating strong engagement for brand partners.

WHAT WE DO

LIVE STUNT SHOWS

Bandit Bikers delivers professional motorcycle stunt performances at *college festivals, public events, motorsport gatherings, and brand activations*. Our shows combine precision riding and structured stunt sequences, creating strong live engagement with large audiences. Unlike conventional digital promotions, these live performances create direct interaction with spectators, making each event more impactful.

BEYOND-LIVE SHOWS

Beyond live performances, Bandit Bikers also works on *motorsport-focused advertisements, brand promotions, and high-adrenaline ad shoots* that require authentic riding skills.

The team specializes in precision riding on both on-road and off-road terrains, delivering action-packed riding sequences for brand shoots and marketing campaigns.

THE ROAD MAP

2006-10

Started from the streets, transitioned to safe closed-circuit riding, and focused on skill-building, identity, and introducing freestyle stunt culture through small shows.

2011

A breakthrough phase highlighted by our milestone performance with World Stunt Riding Champion **Chris Pfeiffer** during his first **Red Bull India Tour in 2011**, establishing us as a respected name in India's stunt riding scene.

2011-18

This phase has been defined by national championship wins and recognition in the India and Asia Book of Records. Alongside performing in large-scale stunt shows and brand tours, we have focused strongly on competitive riding and achievements while continuing to strengthen the Bandit Bikers legacy. During this period, **Mr. Akash** ranked among the top 6 stunt riders in India at the XDL Championship held at the **Buddh International Circuit** and has also performed at major racing circuits in India, including **Madras Motor Race Track (MMRT)** and **Kari Motor Speedway (KARI)**.

2018 - RIDING FORWARD

To expand our passion for freestyle riding and be part of a stronger motorsports culture, Bandit Bikers shifted base from Kerala to Bangalore, one of India's most active motorsports hubs. Since then, we have focused on delivering high-impact live stunt performances, brand stunt tours, action-driven advertisement projects, enduro and off-road riding, and mentoring new riders while continuing to grow within the motorsports community and looking forward to new opportunities that support the sport.
